35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Nobody ever tell me of the findings & if I
 an sight or wrong at what object actually
 were but the one I seen in 40 & about 52
 were real I was several hundred ft from
 the first I thought they were men working
 other first finished working on the Power Line
 and it was getting dark but what was
 funny next time I come this object was not
 there I thought it a small building by the
 transformer This was at Wolf Creek near St
 Clair also I was told there never was anybody
 vicinity & I also believed perhaps my eye
 played trick on me as the men only seemed about
 5 ft tall no smell no light they seemed
 to be searching ground like looking for some
 thing.

Object in 52 was about 1/2 mile away on car
 we broke down & I couldn't go investigate but
 I checked with Penna Power & Light Co St Clair
 Coal Co & one or two Coal operator I nobody
 had any equipment in the area or void
 date I saw the large object send out
 signals like signals from a ship but
 flarker were like flarker from electric
 welding Their object was next to a Power
 line
